About Me

I am doing a PhD studying special subsets of rational points on algebraic varieties. These points, called \mathcal{M} -points generalize integral, Campana, and Darmon points. Currently I am working on adelic approximation for \mathcal{M} -points as well as an analogue for Manin's conjecture for such points, particularly on toric varieties. Alongside this, I am working on connections between stacks and such points.

Employment

- 2021 – 2025 **PhD** Utrecht University
Currently ongoing thesis in arithmetic geometry, with emphasis on Campana points and toric varieties. Advisor: Dr. M. Pieropan
- 2017 – 2021 **Tutorial assistant** Radboud University
Taught and graded students in 10 courses

Education

- 2019 – 2021 **Master in Mathematics, cum laude** Radboud University
Thesis: *Genus 2 fibrations*, Advisor: Prof. Dr. B. Moonen
- 2017 – 2019 **Honours program** Radboud University
Two year extracurricular program of 48 ECTS
First year project: wrote research proposal for planetesimal formation. Joint with J. de Kleuver, J. Nieuwveld, C. ten Dam
Second year project: greatly extended bachelor thesis (see below)
- 2016 – 2019 **Bachelor in Mathematics, cum laude** Radboud University
Thesis: *Eisenstein series and periods*, Advisor: Prof. Dr. W. Zudilin.
Expanded on during my masters program and published as *L-values for conductor 32*.

Publications

- 2024 **Manins conjecture for generalized Campana points on toric varieties**
In preparation
- 2024 **Generalized Campana points and adelic approximation on toric varieties**
Preprint
arXiv:2407.03048
- 2022 ***L*-values for conductor 32**
Journal of Number theory
DOI: 10.1016/j.jnt.2021.09.013, ISSN: 0022-314X

Talks given

- 09/2024 **ICMS seminar** Bulgarian Academy of Sciences, Sofia, Bulgaria
Generalized integral points and strong approximation
- 07/2024 **The Mordell conjecture 100 years later** MIT, Cambridge, United States
Generalized Campana points and adelic approximation
- 06/2024 **Learning seminar on stacks** Online
Deligne-Mumford stacks and examples
- 04/2024 **Rational points consortium** Utrecht University
M-approximation on toric varieties
- 04/2024 **Campana points seminar** Utrecht University
M-points
- 03/2024 **Rational points consortium** Utrecht University
Arakelov theory: arithmetic curves
- 02/2024 **Campana points seminar** Utrecht University
Darmon points and root stacks
- 11/2023 **Junior AG day** Utrecht University
Generalized integral points and strong approximation
- 08/2023 **GQT school and colloquium** Groesbeek, the Netherlands
Adelic approximation of generalized integral points
- 06/2023 **Journées Arithmétiques** Université de Lorraine, Nancy, France
Approximation for generalized Campana points
- 06/2023 **Geometric and Arithmetic Frontiers of Orbifolds II: Arithmetic and hyperbolicity** Université de Strasbourg
Approximation for generalized Campana points
- 04/2023 **DIAMANT symposium** Utrecht
Approximation for generalized Campana points on projective space
- 03/2023 **LENT seminar** Utrecht University
Approximation for generalized Campana points on toric varieties
- 09/2022 **Algebraic Geometry seminar** Utrecht University
Weak approximation and the Hilbert property for Campana points

PhD student

Seminars attended

06/2024	Rational points consortium	Utrecht University
06/2024	Intercity number theory seminar	Utrecht University
05/2024	Rational points consortium	Leiden University
05/2024	Young KWG day	Utrecht University
05/2024	Intercity number theory seminar	University of Groningen
05/2024–	Learning seminar on stacks	Online
06/2024		
04/2024	Belgian-Dutch AG day	Utrecht University
04/2024	Rational points consortium	University of Groningen
04/2024	Campana points seminar	Utrecht University
03/2024	Rational points consortium	Utrecht University
02/2024	Campana points seminar	Utrecht University
02/2024	Flatland Arithmetic	KU Leuven
01/2024	Rational points consortium	Leiden University
12/2023	Intercity number theory seminar	University of Amsterdam
12/2023	Rational points consortium	University of Groningen
11/2023	Intercity number theory seminar	Leiden University
11/2023	Junior AG day	Utrecht University
11/2023	Rational points consortium	Utrecht University
10/2023	Belgian-Dutch AG day	Leiden University
10/2023	Rational points consortium	Utrecht University
09/2023	Intercity number theory seminar	Utrecht University
09/2023–	Seminar on the conjectures of Campana, Lang and Vojta	Radboud University
12/2023		
09/2023	Rational points consortium	Utrecht University
06/2023	Junior AG day	University of Amsterdam
03/2023	Belgian-Dutch AG day	Radboud University
03/2023	EWM meeting	Utrecht University
01/2023	Junior AG day	Radboud University
12/2022	Intercity Geometry seminar	Utrecht University
11/2022	Intercity Geometry seminar	Leiden University
10/2022	Intercity number theory seminar	Leiden University
10/2022	Intercity Geometry seminar	Radboud University
10/2022	Junior AG day	Leiden University
10/2022	Intercity Geometry seminar	University of Amsterdam
09/2022	Belgian-Dutch AG day	KU Leuven, Belgium
09/2022	Getaltheorie in het vlakke land	Utrecht University
09/2022	EWM meeting	Vrije Universiteit Amsterdam
09/2022	Curves over finite fields and arithmetic of K3 surfaces	University of Groningen
05/2022	Intercity number theory seminar	Utrecht University
12/2021	Junior AG day	Online
11/2021	Intercity number theory seminar	Leiden University
10/2021	Intercity number theory seminar	Leiden University

Research visits

09/2024	Visit Dr. V. Mitankin	Bulgarian Academy of Sciences
	Visit to discuss approximation properties for M-points and the associated Brauer-Manin obstruction, 9 September – 13 September	
02/2024	Workshop Campana points on toric varieties II	University of Bristol
	Small scale meeting to discuss counting Campana points on toric varieties, 19 February – 23 February	
04/2019	Visit Dr. M. Neururer	TU Darmstadt
	For discussing bachelor thesis (for honours program), 1 April – 5 April	
03/2019	Visit Dr. F. Brunault (and R. Pengo)	ENS Lyon
	For discussing bachelor thesis (for honours program), 21 March – 27 March
