About Me

I am doing a PhD studying special subsets of rational points on algebraic varieties. These points, called \mathcal{M} -points generalize integral, Campana, and Darmon points. Currently I am working on adelic approximation for \mathcal{M} -points as well as an analogue for Manin's conjecture for such points, particularly on toric varieties. Alongside this, I am working on connections between stacks and such points.

Employment

- | | | |
|-------------|--|--------------------|
| 2021 – 2025 | PhD Currently ongoing thesis in arithmetic geometry, with emphasis on Campana points and toric varieties. Advisor: Dr. M. Pieropan | Utrecht University |
| 2017 – 2021 | Tutorial assistant Taught and graded students in 10 courses | Radboud University |

Education

- | | | |
|-------------|--|--------------------|
| 2019 – 2021 | Master in Mathematics, cum laude Thesis: <i>Genus 2 fibrations</i> , Advisor: Prof. Dr. B. Moonen | Radboud University |
| 2017 – 2019 | Honours program Two year extracurricular program of 48 ECTS First year project: wrote research proposal for planetesimal formation. Joint with J. de Kleuver, J. Nieuwveld, C. ten Dam Second year project: greatly extended bachelor thesis (see below) | Radboud University |
| 2016 – 2019 | Bachelor in Mathematics, cum laude Thesis: <i>Eisenstein series and periods</i> , Advisor: Prof. Dr. W. Zudilin. Expanded on during my masters program and published as <i>L-values for conductor 32</i> . | Radboud University |

Publications

- | | | |
|------|--|--|
| 2024 | Generalized Campana points of bounded height <i>In preparation</i> | |
| 2024 | Generalized Campana points and adelic approximation on toric varieties <i>Preprint</i> arXiv:2407.03048 | |
| 2022 | L-values for conductor 32 <i>Journal of Number theory</i> DOI: 10.1016/j.jnt.2021.09.013, ISSN: 0022-314X | |

Research visits

- | | | |
|---------|---|-------------------------------|
| 09/2024 | Visit Dr. V. Mitankin Visit to discuss approximation properties for \mathcal{M} -points and the associated Brauer-Manin obstruction, 9 September – 13 September | Bulgarian Academy of Sciences |
| 02/2024 | Workshop Campana points on toric varieties II Small scale meeting to discuss counting Campana points on toric varieties, 19 February – 23 February | University of Bristol |
| 04/2019 | Visit Dr. M. Neururer For discussing bachelor thesis (for honours program), 1 April – 5 April | TU Darmstadt |
| 03/2019 | Visit Dr. F. Brunault (and R. Pengo) For discussing bachelor thesis (for honours program), 21 March – 27 March | ENS Lyon |

Research talks given

- | | | |
|---------|--|--|
| 11/2024 | Oberseminar Diophantische Geometrie (online) <i>M-points and adelic approximation on toric varieties</i> | Georg-August Universität Göttingen, Germany |
| 10/2024 | Intercity number theory seminar <i>M-points and adelic approximation on toric varieties</i> | Leiden University, Leiden, the Netherlands |
| 09/2024 | ICMS seminar <i>Generalized integral points and strong approximation</i> | Bulgarian Academy of Sciences, Sofia, Bulgaria |
| 07/2024 | The Mordell conjecture 100 years later <i>Generalized Campana points and adelic approximation</i> | MIT, Cambridge, United States |
| 04/2024 | Campana points seminar <i>M-approximation on toric varieties</i> | Utrecht University |
| 04/2024 | Campana points seminar <i>M-points</i> | Utrecht University |
| 11/2023 | Junior AG day <i>Generalized integral points and strong approximation</i> | Utrecht University |
| 08/2023 | GQT school and colloquium <i>Adelic approximation of generalized integral points</i> | Groesbeek, the Netherlands |
