About Me ———

I am doing a PhD studying special subsets of rational points on algebraic varieties. These points, called $\mathcal{M}$-points generalize integral, Campana, and Darmon points. Currently I am working on adelic approximation for $\mathcal{M}$-points as well as an analogue for Manin's conjecture for such points, particularly on toric varieties. Alongside this, I am working on connections between stacks and such points.

Employment

2021 – 2025	**PhD**	Utrecht University

Currently ongoing thesis in arithmetic geometry, with emphasis on Campana points and toric varieties. Advisor: Dr. M. Pieropan

2017 – 2021	**Tutorial assistant**	Radboud University

Taught and graded students in 10 courses

Education

2019 – 2021	**Master in Mathematics, cum laude**	Radboud University

Thesis: *Genus 2 fibrations*, Advisor: Prof. Dr. B. Moonen

2017 – 2019	**Honours program**	Radboud University

Two year extracurricular program of 48 ECTS
First year project: wrote research proposal for planetesimal formation. Joint with J. de Kleuver, J. Nieuwveld, C. ten Dam
Second year project: greatly extended bachelor thesis (see below)

2016 – 2019	**Bachelor in Mathematics, cum laude**	Radboud University

Thesis: *Eisenstein series and periods*, Advisor: Prof. Dr. W. Zudilin. Expanded on during my masters program and published as *L-values for conductor 32*.

Publications

2024	**Generalized Campana points of bounded height**

In preparation

2024	**Generalized Campana points and adelic approximation on toric varieties**

Preprint
arXiv:2407.03048

2022	**L-values for conductor 32**

Research visits

09/2024	**Visit Dr. V. Mitankin**	Bulgarian Academy of Sciences

Visit to discuss approximation properties for M-points and the associated Brauer-Manin obstruction, 9 September – 13 September

02/2024	**Workshop Campana points on toric varieties II**	University of Bristol

Small scale meeting to discuss counting Campana points on toric varieties, 19 February – 23 February

04/2019	**Visit Dr. M. Neururer**	TU Darmstadt

For discussing bachelor thesis (for honours program), 1 April – 5 April

03/2019	**Visit Dr. F. Brunault (and R. Pengo)**	ENS Lyon

For discussing bachelor thesis (for honours program), 21 March – 27 March
